MEXICAN CONGRESS

SANCTIONS LOAN OF HUNDRED MILLIONS

French and British Bankers
Engage to Float Bonds to Be Guaranteed By Per Cent of Customs Receipts.

ISSUE TO BEAR SIX PER CENT INTEREST

(By Leased Wire to Evening Herald.)
Mexico City, May 21.—The Mexican congress today gave its sanction to a loan of \$100,000,000 at six per cent interest. The amount is guaranteed by 25 per cent of the customs receipts. The Mexican National Bank is named as the representative of the bankers in the supervision of the disbursements.

The debate on the loan was a long one, lasting until midnight.

The minister of finance was charged with the duty of making a report on the loan. He reported that the loan was a loan of honor and not a loan of money. He said that the loan was a loan of honor because it was a loan of money which would be used for the benefit of the country.

It is still necessary for congress to discuss and vote on the loan. The loan is a loan of honor and not a loan of money. The loan is a loan of honor because it is a loan of money which will be used for the benefit of the country.

VICE INVESTIGATOR

OF CHARGE OF IMMORALITY

Legislative Committee Finds That Lieutenant Governor Was Victim of Conspiracy By Underworld Interests.

YOUNG WOMAN INDUCED TO MAKE FAKE AFFIDAVIT

(By Leased Wire to Evening Herald.)
Springfield, Ill., May 21.—Lieutenant Governor Edward O'Hara was charged today with the crime of immorality by the special senate committee which today reported its findings to the senate. Miss Marie Robinson of Springfield, who signed the affidavit, the substance of which was that under assumed names she and the lieutenant governor were registered in a Chicago hotel as man and wife, and Sam Davis of Springfield, at whose instance the affidavit was prepared, were charged by the investigating committee with attempting to obstruct the work of the anti-vice commission, of which Lieutenant Governor O'Hara is chairman.

Davis feared that he would be subjected to severe examination if called before the white slave committee, the committee found, and caused the affidavit to be prepared to protect him. The lieutenant governor and the other commissioners from closely questioning him.

STEEL CORPORATION

ADVANTAGE OVER COMPETITORS JUSTIFIED

Was Not to Blame If Smaller Concerns Were Unable to Own Railroads Over Which They Shipped Material.

TRANSPORTATION COST ADDED TO PROFITS

(By Leased Wire to Evening Herald.)
New York, May 21.—Charles M. Schwab, first president of the United States Steel corporation, was cross-examined today in the hearings of the dissolution suit against the corporation on his testimony as to the chief purposes of the organization of the corporation was to develop export trade.

"How long after the formation of the corporation did the plan of developing export trade take effect?" asked Judge James M. Dickinson, the government lawyer.

"I could not say exactly. I brought Mr. Farrell from Pittsburgh to take charge of the export business shortly after the corporation's formation and the business has developed constantly since."

Statistics put in evidence by the government showed that export sales immediately after the formation of the corporation were smaller than immediately before.

In support of the government's contention that the Carnegie, Federal and National steel companies were competitors before being taken over, Judge Dickinson called from the witness stand the statement that their sales agencies in several common products, notably rails, were combined after their acquisition.

Taking up the price of steel rails, Judge Dickinson wanted to know whether the steel corporation did not make a larger profit on its rails than its competitors owing to the fact that it owned the railroads over which the raw materials were transported.

Mr. Schwab conceded that the profits which the corporation's railroads made in transporting these raw materials ought to be subtracted from the cost of making its rails.

"Then the corporation has an advantage over its competitors?" insisted Judge Dickinson.

"Yes," replied the witness, "but because the Bethlehem steel corporation has not the resources to build its own railroads."

RESULTS IN DENVER

MUNICIPAL ELECTION

(By Leased Wire to Evening Herald.)
Denver, May 21.—Returns from 170 out of 189 precincts at 2 o'clock this afternoon indicate that the following were elected to municipal offices yesterday:

Commissioner of Improvement—John B. Hunter.
Commissioner of Social Welfare—J. C. Perkins.
Commissioner of Safety—Alexander Nesbit.
Commissioner of Finance—Clair J. Fitcher.
Commissioner of Property—Otto Thum.
Auditor—James F. Markey.

These candidates are leading by pluralities of from 200 to 8,000. The contest for commissioner of safety is close between Nesbit and Hamilton Armstrong, with Fells O'Neill present chief of police, third, Daniel M. Butler, the present sheriff, was defeated for commissioner of safety, and Mayor Henry J. Arnold is far down in the list of candidates for commissioner of the commission system and that he was ready to turn over his office to the newly-elected commissioners.

Denver, May 21.—With about one-half the precincts reported, the leaders in the municipal commission election at noon today were as follows:

Auditor—James F. Markey.
Commissioner of Finance—Clair J. Fitcher.
Commissioner of Property—Otto Thum.
Commissioner of Safety—In doubt.
Commissioner of Social Welfare—J. C. Perkins.
Commissioner of Improvements—John B. Hunter.

It is generally conceded that the James Peak tunnel project and the Chicago, Burlington and Quincy trackage permit have carried.

Skating tonight and Thursday.

Rosenwald's

PREFERS TENNIS TO HOMAGE OF LOYAL CANADIANS

Second Son of England's King Disappoints Governor and People of Halifax to Indulge in Game With Cadets.

(By Leased Wire to Evening Herald.)
Halifax, N. S., May 21.—Prince Albert, second son of England's king, chose tennis today in preference to a visit to the government house, where he was to have been received in state by the lieutenant governor of this province.

The streets were decorated for the occasion and hundreds massed the sidewalks hoping to catch a glimpse of the young prince. At the last moment he decided he would rather play tennis with cadets of the training ship "Cumberland," now in port, and of whose crew he is "an ordinary" member.

WOMAN HAS WEED TO CURE BUBONIC PLAGUE

(By Leased Wire to Evening Herald.)
Washington, May 21.—Sergeant General Stokes of the navy has received a letter from a woman whose name was withheld in which she informed him that she had a weed which would "cure bubonic plague," also snake bites, tarantula bites, all kinds of poisonous insect stings, centipede stings and has been said to have cured hydrophobia. It is quite probable that it will cure the bubonic plague. It won't do any harm if it doesn't do any good," she says, and closes her letter with a request to hear from the surgeon general on the matter.

Ask the people who have traded with us this week, and they'll tell you we are selling at rock-bottom prices. The Model.

NO MASS MEETING OF HARVESTER WITNESSES

(By Leased Wire to Evening Herald.)
Chicago, May 21.—There was no mass meeting of witnesses for the International Harvester company today. This fact developed as successful witnesses were asked by Edwin P. Grosvenor, representing the government in the anti-trust suit, if they had attended such a meeting.

A large number of implement dealers from Indiana, Michigan and Illinois testified as to the percentage of sales of International Harvester company machines as compared with other makers.

LOCAL SCHOOL HAS A BIRTHDAY

Extraordinary Growth Shown by Business College Since J. E. Goodell Took It Over Four Years Ago.

It will be four years tomorrow since J. E. Goodell assumed the management of the Albuquerque Business College, and, although there is to be no formal observance of the occasion, Mr. Goodell is nevertheless receiving the hearty congratulations of a host of Albuquerque people who happen to know how he, by reason of extraordinary energy and enterprise, has developed an original one-room class of seven students into the largest and most successful commercial school in the southwest.

The struggling school which Mr. Goodell took over four years ago occupied a single room in the library building, and its entire equipment consisted of a desk, a few rough writing tables and chairs and two second-hand typewriters. Today the Albuquerque Business College occupies the entire third floor of the Korber building and has a total enrollment of more than 170. Four years ago Mr. Goodell himself was the only teacher. Today the business college has a faculty of six—all experienced teachers and specialists in their various lines. Four years ago all the students were Albuquerque people. Today there are students from fifteen counties of New Mexico, together with some from Arizona, Texas and other states. Graduates of the school will be found in important positions all over the state, and one has a profitable government berth as far away as the Philippines.

From time to time notable additions have been made to the courses of study, chief among them being the civil service and accountancy departments. It will be noted with interest, too, that graduates of the civil service department have been almost uniformly successful in meeting the tests required for governmental appointments.
